CHAPADA DIAMANTINA

auroraeco

THE EXPERIENCE

Chapada Diamantina is a region of mountains, protected by the Chapada Diamantina National Park, located in the center of Bahia, where almost all the rivers in the Paraguaçu, Jacuípe and Rio de Contas basins originate.

These water currents emerge from the peaks and slide across the relief, falling into bubbling waterfalls and forming transparent natural pools.

In just 5 days you will get to know a lot about this destination, starting with the Rio Santo Antônio, crossing the Marimbus, also known as the Pantanal da Chapada. Have fun in the hydromassage cauldrons of Rio Roncador, in the giant Cachoeira da Fumaça, and in the waterfalls of Rio Riachinho, Primavera and Poço do Diabo. Also discover the Torrinha Cave, Morro do Pai Inácio, the Hall of Colored Sands, Poço Halley, the Mirante and Cachoeirinha.

The vegetation is exuberant, made up of species from the semi-arid caatinga and mountain flora, with emphasis on bromeliads, orchids and evergreens.
